NEW DESCRIPTIONS

Here are some new descriptions that will be listed in a new supplement to the nomenclature when there are enough to warrant publication.

ASATO #67 — Single

Bloom: 6", medium texture, overlapped.
Color: Fuchsine pink (627/1), overlapped half of petals white, overlaid with Fuchsine Pink, increasing toward center of petal. Style Claret rose (o21/1) at base shading lighter to top. Stigmas Indian Lake (826). Back of petals Dresden Yellow (64/3) on overlapped side, white middle, overlapping side shaded with Fuchsine Pink.
Bush: Medium size, medium upright, open branching. Medium grower.
Leaf: Medium small, medium heavy texture, dull. Cordate, Entire to slightly Dentate.

ASATO #88 — Single

Bloom: Average 6", medium texture, flat, overlapped. Edges curl up slightly, rather crepey, veined.
Color: Grayish Tan with slight yellow shading. Narrow band of Phlox Purple (632/3) in throat. 1 1/2 inch center of Chrysanthemum Crimson (824/3). Style Chrysanthemum Crimson at base to Crimson (22/2) near top. Stigmas Blood Red (820). Back of petals Sulphur Yellow (1/3) on overlapped side to light Beige.
Bush: Medium tall rather slow grower, branches well.
Leaf: Medium size, Medium texture, dull, somewhat cupped and crumpled. Reniform, Entire.

(Cont'd)

ASATO #146 — Single

Bloom: 7", medium texture, dull, overlapped, partly recurved, somewhat ruffled and tufted, rather wrinkled.
Color: Chinese Coral (614/1) edge, blending into Rose Madder (23). Center slightly darker and shiny. Style Current Red (821/3) shading lighter to almost white at top. Stigmas Orange (12/1). Back of petals Peach (512) with shading of Chinese Yellow (606/1) on overlapped side.
Bush: Rather tall, upright, rather open branching. Strong grower.
Leaf: Medium size, medium texture, slightly crumpled. Orbiculate, Acuminate, Entire to slightly Crenate.

CAMELOT — Crested Single

Bloom: Up to 7", 2/3 overlapped, somewhat recurved. Petals very tufted, rather crumpled, crepey.
Color: Buttercup Yellow (5/2) into White throat. Base of petals Spinel Red (oo23/1) shading into throat. Style pale Buttercup yellow with slight tinting of Spinel Red at base. Stigmas Canary Yellow (2/1). Back of petals lighter Buttercup Yellow to white at base.
Bush: Medium height, upright, branches well, medium grower. Inclined to shed buds, but still fairly good bloomer.
Leaf: Medium size, medium texture, rather wavey, Orbiculate-Cordate, Acuminate, lightly Crenate.

GILL WHITTEN — Single — D. D. Wolfe

Bloom: Up to 6", 3/4 overlapped, recurved, dull, medium texture, somewhat ruffled.
Color: Orient Red (819/1), shiny Cardinal Red (822) throat, shading darker to Indian Lake (826) at base of petals. Self-colored style. Stigmas Blood Red (820). Back of petals Orient Red
